

Automated Commercial Environment—Requirements Recommendation

Date:	May 15, 2001
Number:	BUS-003-HL
Requestor:	Business Applications of Technology Subcommittee
Customs Co-Chair:	(signature)
Trade Co-Chair:	(signature)

Requirement

Provide high-speed internet access to Customs E-business applications that will enable business transactions and reviewing account status.

Business Need

Provide the functionality to submit and receive business transactions with Customs via a web-enabled solution.

Provide access to account management data via a web-enabled solution.

Technical Need

Leverage technology to transition to automated paperless processes (workflow management) and expedite business processes.

Related Technology Areas:

Appropriate application architecture

Network infrastructure

Security infrastructure

Benefits

Provide an automated, platform independent mode of conducting business and reviewing account status.

Risks

Significant technology infrastructure must be laid as a foundation. Must address security implications.
